

# corporate massage

The ultimate way to relax, reward and revive your team!

Corporate massage treatments are proven ways to create a positive work environment and motivate your staff. For a small investment you'll have happier and healthier employees who want to stay with you and go the extra mile for you.

Rejuvenation Massage therapists use specialist massage chairs to give a fully clothed neck and shoulder massage from 5min - 15min neck and shoulder massages or we can set up a massage table to offer 20min or 30min treatments in a private meeting room or board room. That small amount of time out can help to reduce time lost through stress, back and neck problems and low morale.

After a Rejuvenation Massage you and your employees are smiling and re-energised, and productivity improves without leaving the office! And that can only help your bottom line!

## Clinic Corporate Offer
